Career Pathways Reminders

- Advising is not only part of the legislation but is imperative to connecting students from IETs to future opportunities in their field through the education and employment.
- Marketing to students outside of your program is key – some people will not be motivated to come "back to high school" but are motivated to earn workforce credentials that require a high school diploma or its equivalent.
- Students with IDD are entering Career Pathways through all areas of the community college as part of Access to Achievement. Be sure that CCR is the right fit for a student before automatically enrolling based upon a diagnosis or high school experience.

Digital Literacy

- Digital Navigator Project
 - All 20 colleges are onboard and at work
 - Spanish version of the Digital Navigator Essentials course (training for DNs through the Virtual Learning Community) is nearly complete
- Digital Disaster Recovery
 - Determining needs for getting those in impacted areas "back on their feet" digitally
 - Helping those who may have lost devices, may need to apply for benefits, etc.

HSE Office

- **2025 Security Information and Emergency Plan Forms**
 - Distributed to HSE chief examiners last month
 - Included supporting documents and a guide video
 - Due before the first HSE exam administration of 2025
- **HSE Professional Development from Fall 2024**
 - HiSET Roadshow in September (Durham)
 - A Day with GED Testing Service in November (Raleigh)
 - Any topics that would be helpful in the future?
- **Next HSE Office Monthly Update: Friday, December 6 at 10am**

Assessment Updates

- **Assessment Crosswalks**
