

ADVANSYS DASHBOARD DATA ELEMENTS

DATA DEFINITIONS

Actively Enrolled

The number of students who have an active registration of any type in the program. This population includes students who have an NRS registration as well as other non-NRS registrations (College Transitions, for example). It does NOT include Enrichment students. This is a unique, single record count.

Please note: This field does NOT consider Period of Participation status. Students who have not yet reached the 12-hour threshold or been tested will appear in this count.

Active NRS

The unique count of students who have an open (not separated) NRS registration.

Please note: This field does NOT consider Period of Participation status.

Active ABE/ASE

The unique count of students who are actively enrolled in the program with an ABE/ASE registration. **This field does NOT consider Period of Participation status.**

Active ESL

The unique count of students who are actively enrolled in the program with an ESL registration. **This field does NOT consider Period of Participation status.**

Active IET

The unique count of students who have an active IET registration. Students with an active IET registration should also have an active NRS registration!

Active IEL/CE

The unique count of students who have been designated as IEL/CE in the system.

Active Non-NRS

The unique count of students who have an active registration that is of a non-NRS type.

Please note: This population will include students who HAVE an NRS registration but also have an active registration type that is Non-NRS.

Needs Pre-Test

The unique count of students has not been tested in the fiscal year (do not have an Entering EFL).

Please note: For a test to be considered as valid on the student record, it MUST be approved. Students with unapproved pre-tests WILL appear in the Needs Pre-Test population.
